ABOUT ME

As a dedicated intern in Software Engineering, I'm fueled by my passion for technology and my commitment to continuous growth. With a focus on web development, I have experience building responsive websites using modern frameworks like React.js. Thriving in fast-paced environments, I leverage my problem-solving skills and creativity to drive impactful results. Eager to contribute to innovative projects, I am dedicated to excelling in software development roles, particularly in web development settings.

PROJECTS

YeildPro *2024*
- *An yield estimation application completed as second year SDGP project combining ML models and algorithms*
- *Languages - Front-end - React / Back-end - Flask / Database - MySQL*
- *Technologies - PWA , JWT , Docker*

Secure Scan *2024*
- *SecureScan is a robust QR code application designed to authenticate products and ensure their genuineness in the market. The application generates unique QR codes for each product, embedding essential data related to its authenticity and origin.*
- *Languages - Front-end - React / Back-end - Node(express) / Database - MySQL*

Shopping application *2024*
- *A basic application developed with OOP concepts adding and managing GUI for the user*

Login-Page *2024*
- *Express backend for user authentication registration and login*

SKILLS

Languages
- Python
- Java
- HTML / CSS
- JavaScript
- React JS

Technologies
- PWA
- JWT
- Docker

CERTIFICATES

Programming with JavaScript
- Certificate by Meta

Cloud computing with AWS
- Certificate by Microsoft

RESTful APIs with Node.js and Express   *Ongoing*
- Certificate by Board Infinity

EDUCATION

University of Westminster *2022 – Present*
- BEng(Hons) Software Engineering

Informatics Institute of Technology *2021 – 2022*
- Foundation in computing

St. Joseph's College - Colombo 10 *2020 – 2021*
- Studied A/L's

Loyola College - Negombo *2009 – 2019*
- Primary to Ordinary Level
